

Setting Up a Collegiate Team

Memberships:

In order for your team to compete in USA Climbing events, each competitor must have an individual collegiate membership. Either a Collegiate Introductory or a Collegiate Membership. If your members have a Collegiate Introductory Membership, they have to upgrade to a Collegiate Membership prior to Divisional Championships.

Team Registration:

Each team will need to fill out a Team Registration Form. This form helps USA Climbing know where active collegiate teams are and how best to communicate with them. The team registration form can be found [here](#).

Paying for Memberships as a Group:

Teams or schools can pay for memberships in a batch. Please follow the steps to make that happen:

- 1) Have everyone on your team get their collegiate membership and add it to their cart
- 2) Once **everyone** has their membership in their carts, email your roster and where to send the invoice to rachel@usacimbing.org
- 3) USA Climbing will then send the invoice and process all of the memberships
*Anyone whose membership is not in their cart will not have their membership processed and will have to process it on their own. Please make sure everyone has their memberships in their cart before emailing Rachel.

Team Competitions:

Team competitions take place at Collegiate Divisionals and Nationals. During the Qualifying Event Series, there are no team competitions.

In order to be able to compete in the team competition, teams must have a roster in their USA Climbing Membership portal. The steps to do that can be found [here](#).
