

## USA Climbing Youth Nationals Eligibility – Speed (PRELIMINARY as of May 9, 2022)

The USA Climbing Rules specify that athletes earn eligibility to the Youth National Championship in the Speed discipline in one of the following ways:

1. Earn **pre-qualification** by being a current World Champion, Pan American Champion, or National Champion in Speed in either the Youth or Elite Series or being a current National Champion in the All-Around Combined, among US citizens who competed in all of the Boulder, Lead, and Speed Disciplines at the 2021 Youth National Championships. (section 20.2.3)
2. **For Junior, Youth A, or Youth B category competitors:** achieve at least one time that meets or is faster than their category's Qualification Speed Benchmark time for the Speed wall height at a Qualification Speed Trial. (section 16.6.3)
3. **For Youth C category competitors:** achieve at least one valid time at a Qualification Speed Trial. For the avoidance of doubt, a competitor must finish the speed route in adherence of the rules in order to have a valid time. (section 16.6.2)

The 2021-22 Qualification Speed Benchmark times (in seconds) for the 15-meter and 10-meter Speed wall are as follows:

| Category | 15 meters | 10 meters |
|----------|-----------|-----------|
| FJR      | 16.75     | 11.25     |
| FYA      | 16.75     | 11.25     |
| FYB      | 18.75     | 12.50     |
| MJR      | 12.25     | 8.25      |
| MYA      | 12.25     | 8.25      |
| MYB      | 14.75     | 10.00     |

This document lists all pre-qualified athletes as well as the Junior, Youth A, and Youth B athletes who have competed at a 2021-22 Qualification Speed Trial (QST) so far this season, the fastest time that they recorded across all QST events at which they competed, and the event date and name at which they achieved that fastest time. If that time meets or is faster than the relevant Speed Benchmark time for their category and the wall height at which they competed, they are designated as “Met Benchmark” – meaning that they have met the eligibility requirement to compete in Speed at Youth Nationals. Per amended Rule 16.6.3, for times recorded at a QST using manual timing devices, eligibility is also awarded if the time recorded at the Qualification Speed Trial is within 0.2 seconds of the Benchmark time.

Note: for athletes who competed in a QST with a 10m wall and one with a 15m wall and earned eligibility at both, only the 15m time is listed here.

The document also lists all Youth C athletes who participated in and recorded a valid time at a QST; this signifies that they are eligible to compete in Speed at Youth Nationals. As the height and configuration of C Speed routes vary across the country, the times for those races are not included here.

**If you believe there is an error in a competitor's Speed results, please email [eligibility@usaclimbing.org](mailto:eligibility@usaclimbing.org) as soon as possible.**

2021-22 Youth Speed Competitors Pre-Qualified for National Championships
