

Qualifying Event Level 2 Routesetter Waiver

USA Climbing strongly encourages host facilities to bring in a Level 2 or higher setter for these events. The quality of the event is elevated when under the direction of an experienced and appropriately certified Routesetter. If the Host of a USA Climbing Youth or Collegiate Qualifying Event is not able to arrange for a Level 2 Routesetter to chief the event, a waiver can be issued by the USA Climbing Routesetting Program Manager, allowing a Level 1 or other experienced setter to act as Chief Routesetter for a Qualification event.

To qualify, the host facility Routesetter must complete all the following:

1. Establish or own a current USA Climbing Certified Routesetter Membership:
 - Pay membership fee
 - Complete SafeSport Training
 - Pass a USA Climbing background screen
2. Attend a scheduled L2 Waiver call with the USA Climbing Routesetting Program Manager at the start of the discipline's season (email mike@usaclimbing.org for schedule) OR watch one of the recordings below for the discipline to be hosted:
 - [Boulder QE L2 Waiver Call Recording](#) (Passcode: 8w+u4ppq)
 - [Lead/TR L2 Waiver Call Recording](#)
3. Review the Qualifying Event Setting Guidelines for each discipline found on the [Routesetting page of the USA Climbing Website](#).
4. Return this completed form to: events@usaclimbing.org

By signing below, you assure that all requirements for this Level 2 Waiver will be met prior to the commencement of routesetting for the event.
